

CSK SERIES COMPACT/BENCH SCALE

Extremely versatile compact scale, featured by a mobile weight indicator, which, thanks to the extendable cable, can be placed in a more suitable position for weighing bulky packages or objects. Its sturdiness and ease of use allow it to be used in various environments, from the office to the kitchen; ideal for the agrifood and industrial fields.

TECHNICAL FEATURES

- Mobile weight indicator, very useful for weighing bulky packs and objects; thanks to its extendable cable (up to about 1 m long) it is possible to move the indicator in the desired position and work with ease.
- LCD 5-digit display, with blue backlighting.
- Simplified three key mechanical keypad.
- Structure and plate in reinforced plastic, **219x189mm** plate size.
- Extremely quick magnet system for hooking and unhooking the indicator.
- Innovative design.
- On/Off through dedicated key.
- Power supply: 3 fitted extractable batteries of the 1,5V AAA type.

FUNCTIONS

- Hold (freezing the weight on the display);
- Tare/Zeroing;
- On/Off
