

FL SERIES "FLOOR" PLATFORM

Monobloc electronic platforms suitable for weighing above ground in all types of industrial and commercial applications. Connectable to any weight indicator.

TECHNICAL FEATURES

- Functions with 4 OIML R60 approved load cells, with protection against dust and moisture according to IP67 standards (350 Ohm input resistance).
- Monobloc structure with oven-fire painted steel tubulars, adjustable resting feet, and level. Fixed striated sheet steel load surface.
- 15 Vdc power supply.
- Screened 3m connection cable with connectors for connection to the indicator.
- **Model Dimensions**

Options for FR and FL' series platforms

Code	Description
SHCAL1	Indicator connection/configuration/calibration at our premises of scale with capacity up to 30kg - NET PRICE
SHCAL2	Indicator connection/configuration/calibration at our premises of scale with capacity up to 1500kg - NET PRICE
SHCAL3	Indicator connection/configuration/calibration at our premises of scale with capacity up to 6000kg - NET PRICE

Accessories

Code	Description
CSP38I	STAINLESS steel support column, for the AFW and ILW series' indicators of the SCALEHOUSE range. Easy to install and clean. Adjustable feet, for guaranteeing the maximum stability.
